Montesano WA 98563

**Subject: Satsop Combustion Turbine Project - Draft Air and Water Discharge Permits
Issued for Public Comment**

Dear Librarian:

The Energy Facility Site Evaluation Council (EFSEC) has made public notice in local newspapers, and by mailing to interested persons, of a draft Notice of Construction (NOC) and Prevention of Significant Deterioration (PSD) air emissions permit amendment, and of a draft National Pollutant Discharge Elimination System (NPDES) permit reissuance for the Satsop Combustion Turbine (Satsop CT) Project in Elma, Washington. To fulfill its public participation mandate, the Council must make copies of these draft permits, and associated documents, available for public review in the vicinity of the proposal.

Please find enclosed a binder with the documents regarding these draft permits. Please place these documents where the public will have access to view them during the public comment period. The public comment period will extend through September 4, 2002.

If you have any questions please don't hesitate to call me at (360) 956-2047. Thank you in advance for your assistance.

Sincerely,

Irina Makarow
Siting Manager

**Enclosure: Public reference document for draft NOC/PSD and NPDES permits for the
Satsop CT Project.**
